

A brand new rose, bearing the name of Australia's King of Country Music was officially launched on March 24th 2010, at the Melbourne International Flower & Garden Show.

The Slim Dusty Rose is a beautiful rose bush with a rich golden orange colour with copper bronze tonings, with healthy copper green disease resistant foliage and fragrant blooms, that blend with the outback colours of Slim's beloved Australian bush.

Developed by Landsdale Rose Gardens in Perth, this compact Floribunda grows to 900mm by 750mm. It is ideal for garden beds or borders and makes for spectacular mass plantings.

Part proceeds from the sale of every rose bush will be donated to the Slim Dusty Foundation Ltd.

The Slim Dusty Rose, named after the Aussie Music Icon, was unveiled by Joy McKean OAM, Slim's wife and partner of over 50 years. Joy is also the Chair for the Slim Dusty Foundation Ltd, the organisation established to build and operate the Slim Dusty Centre in Slim's hometown of Kempsey, NSW. The Slim Dusty Rose will also be a special feature in the garden landscape around the Slim Dusty Centre.

For progress on an opening date visit www.slimdustycentre.com.au The Slim Dusty Centre will be a world class centre, of national significance, depicting the life and achievements of Slim and the way in which his music has reflected the changing face of Australia.

The Slim Dusty Foundation Presents

The Slim Dusty Rose
